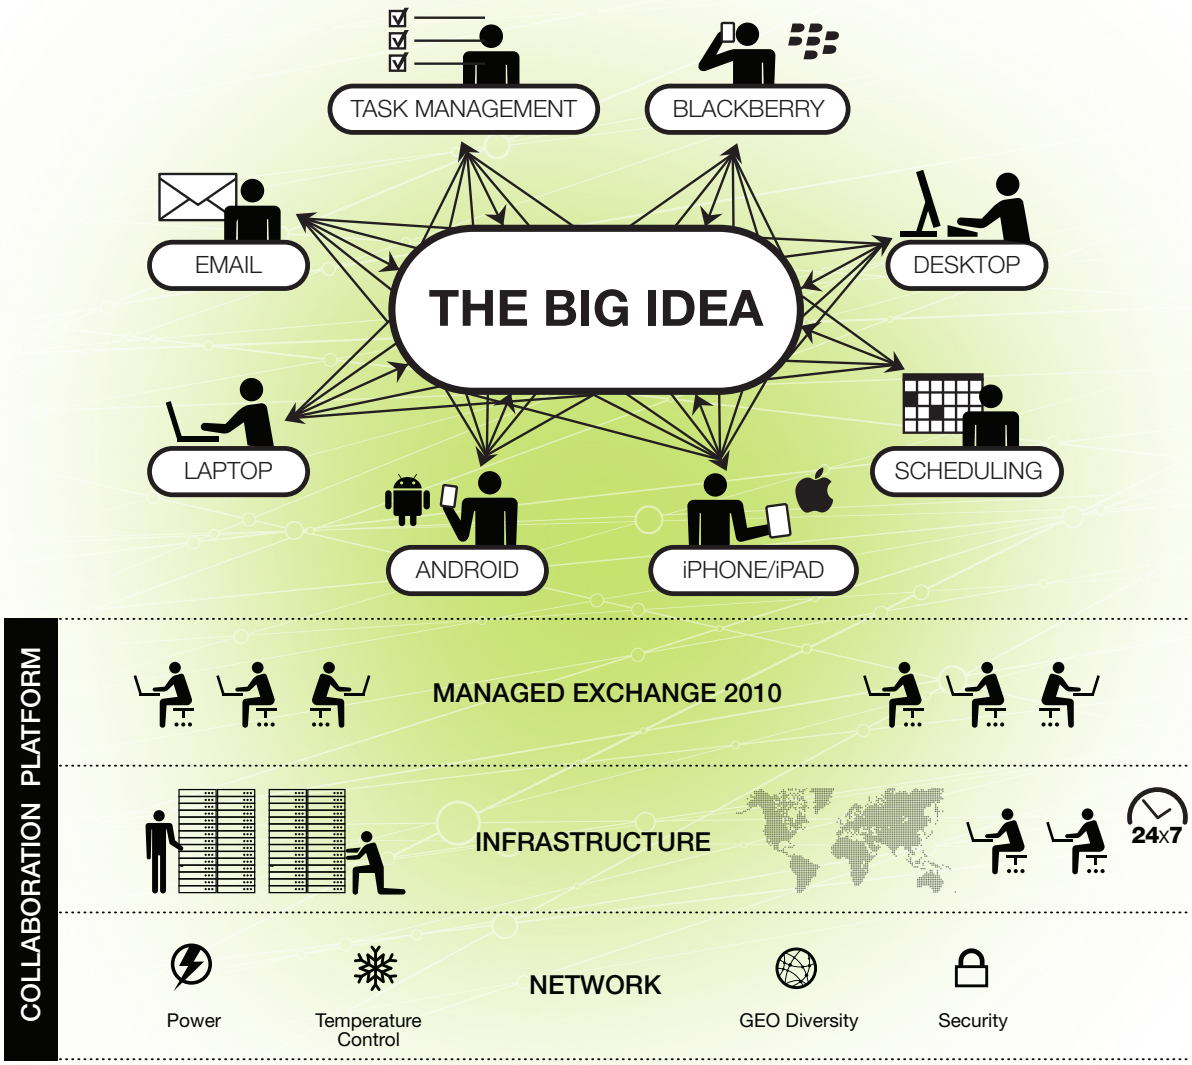
Business Class Email

Turnkey Email Collaboration Platform – Starting at $4 a Mailbox – Fully Managed by PEER 1 Hosting

Business Class Email by PEER 1 Hosting is a turnkey email collaboration platform powered by Microsoft Exchange that is fully managed by our dedicated team of email experts. You get all the enterprise-grade functionality that you expect from the platform without all the additional headaches and investments that come with mail servers, software licenses, security and nonstop system administration.

And no matter where you are or what type of device you're using, it delivers rich, efficient and secure access to email, calendars, attachments, contacts and more. This anywhere access that your employees demand, along with its advanced security and ease of use, is exactly what our Business Class Email delivers..



FEATURES

Generous Resource Allocation. With 25 GB of mailbox storage, 1 GB of public folder space and up to 30 MB of file attachments per email, our Professional Business Class Email comes with everything you'd expect to help your team collaborate effectively. Business Class Email is also flexible enough to grow with your business, with affordable options for additional users, mailbox storage and public folder storage.

Seamless Collaboration. Business Class Email comes with plenty of features to help you and your teams collaborate effectively, including shared calendars, tasks, contacts and much more.

Anywhere, Any Device Access. Business Class Email helps you stay connected wherever you may find yourself. Our Basic package lets you leverage the flexibility of Outlook Web Access' rich web-based interface to stay connected whether you're in the office or on the road. And with our Professional Business Class Email, you can choose between the power of rich mail clients like Microsoft Outlook or Microsoft Outlook for MAC or the ease and reach of mobile email platforms like the iPhone/iPad, Android and Blackberry.

Email Protection Powered by McAfee. Email Protection works to block more than 99% of spam, viruses, worms, and other harmful content. It protects your email infrastructure, safeguarding your communication and the integrity of the information that drives your business.

Easy Administration. Adding users, additional mailbox storage and changing other account settings is a snap with our intuitive, secure and globally accessible web-based control panel.

FastFiber Network™. Our FastFiber Network™ ensures that your email, meeting invitations and large file attachments always reach their destination fast. With 21 points of presence, over 15,000 miles of fiber and over 1,050 peering relationships worldwide, you can rest soundly knowing that wherever your team finds itself you'll be able to keep in touch and stay in lock-step.

BENEFITS

No Investment. Leverage a robust, scalable and enterprise-grade email collaboration platform without investing in mail servers, software licenses, security, or ongoing system administration.

Anytime/Anywhere Availability. Always have secure access to email, calendars, attachments, contacts and more—whether you're at your desk or on the road.

Collaboration That Fits Your Style. Whether you prefer the power of a rich Outlook client, the ease of a rich web-based email client, or the flexibility of mobile email platforms like the iPhone/iPad. Android or Blackberry, our Business Class Email has an option that's right for you and easy on your budget.

Collaboration That Works for Your Business. Increase company-wide productivity and effectively collaborate like never before with shared calendars, tasks, contacts, public folders and more.

Collaboration That's Secure. With Email Protection powered by McAfee, you can sleep soundly knowing that your Business Class Email solution is continually protected from SPAM, viruses, malware and other forms of malicious intrusion.

Completely Turnkey. Our team of Exchange experts takes care of everything for you so you can focus on your business. We maintain the hardware, patch and upgrade the system and periodically backup your email so you don't have to. Our experts are also available 24x7x365 by phone and email to answer any questions or solve any problems you may have with your Business Class Email solution.

PING & PEOPLE

ABOUT PEER 1 HOSTING

Since 1999, we've grown into one of the world's leading hosting providers. We got here by delivering the kind of exceptional service that gets noticed, and a FastFiber Network™ that always delivers on our uptime promise. And for over a decade we've been cutting through the frustration of underperforming technology and poor service, delivering the power of the Internet to any organization that needs it. We do this through award-winning Managed Hosting, Colocation, Cloud Hosting, and Network Services.

Our Service Promise. Everything we do is backed by our FirstCall Promise™. It means you only need to ask once, and our outstanding people won't rest until your issue is resolved. Our service excellence is then underpinned by iron clad SLAs and further reinforced by a 30 days money back guarantee. We're so motivated by your happiness we even measure it using Net Promoter®. It's the standard global metric for gauging success, and we're constantly improving - by 76% last year alone!

How We Got Started. It all began when two successful business mavericks had a chance meeting in an elevator. Lance Tracey and Mark Teolis found they shared a passion for the untapped power of the Internet, and a shared belief that it was about to radically transform business. They also believed this power should be available to all, and could give small and medium sized businesses the platform they needed to compete against anyone.

Awards and Recognition.
