

## Business Class Email

*Establish a powerful, enterprise-level collaborative email environment without the hassles.*

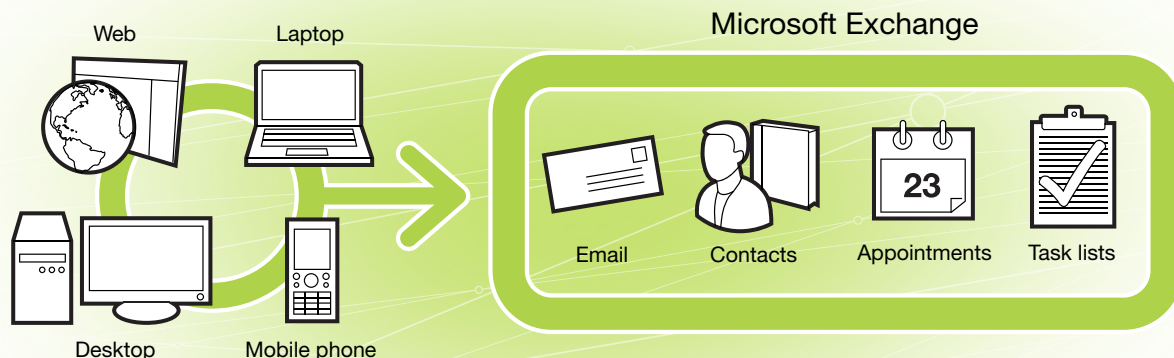

**No Capital Investment – Full Enterprise Collaboration – Infinitely Scalable**

Microsoft Exchange 2007 provides rich, efficient and secure access to e-mail, calendars, attachments, contacts, and more—whether you're at your desk, on your laptop, or mobile. It delivers the advanced protection your business needs and the anywhere access that your employees demand, combined with the operational efficiency that is critical in today's difficult IT environment.

PEER 1 Hosting Business Class Email delivers the full value of this collaborative environment, without the expense, administration or maintenance of an on-premise solution. Enjoy full collaboration, anywhere access, premium Anti-Spam and Anti-Virus protection and more, with the flexibility to grow or contract accounts as needed.

### BENEFITS

- Enterprise-wide Collaboration**  
Create a fully collaborative and efficient environment, including shared calendars and tasks, contacts, public folders, groups, and global address books. At the same time, all your users can fully customize and organize their individual mailboxes as they wish.
- Synchronization**  
Keep your Exchange mail and your mobile devices fully synchronized. Full mobility support for iPhone, Windows Mobile (ActiveSync) and Blackberry Enterprise Services is available.
- Availability**  
Access your mail, calendars, tasks and files from your desktop, mobile device or the web, using Microsoft Outlook Web Access. Business Class Email from PEER 1 Hosting includes access via OWA and licenses for Outlook 2007 and Entourage 2008.
- Unlimited FirstCall Support™**  
FirstCall support means you have to make only one call to us to be certain of a rapid resolution. We do that through our talented support team, formed of Level 2 and 3 System Administrators with an average of five years tenure with us. And that team is available to all Business Class Email customers, every minute of every day.

## FEATURES

- **McAfee SaaS Email Protection**

McAfee SaaS Email Protection works outside of your network to block more than 99% of spam, viruses, worms, and harmful content. It protects your email infrastructure, safeguarding your communication and information integrity.

Features include:

- Spam blocking
- Virus and worm scanning
- Fraud protection
- Content and attachment filtering
- Email attack protection
- Reputation-based security
- Outbound message filtering
- Five days of spooling for email disaster recovery

- **Control**

Use our easy Web Based Administration and Control Panel to manage provisioning, pooled resources, account settings and more.

- **Generous Resource Allocation**

- Every mailbox is allocated five gigabytes of pooled storage, with an additional one gigabyte per account for the public folder.
- Attach up to 50 MB files without concern about network bottlenecks or performance degradation.
- Unlimited number of, forwarding accounts, email aliases, and domains.

- **Our FastFiber Network™**

All seventeen of our data centers and all 21 points of presence are connected over 13,000 miles of fiber through a series of dedicated links. We strengthen that with peering relationships with over 500 networks and multiple Tier 1 upstream providers. The FastFiber Network™ ensures the optimal performance of your Exchange infrastructure.

## PRICING

PEER 1 Hosting Business Class Email has bundled multi-account packs starting with as few as three mailboxes and extending to as many as you need. Discounts apply based on the number of accounts we host for you. Contact your PEER 1 Hosting sales representative to determine the ideal account pack for your needs.
